Strategies for Teaching Inclusively as the Pandemic Continues

Dr. Kelly A. Hogan

STEM Teaching Professor, Department of Biology
Associate Dean of Instructional Innovation
University of North Carolina at Chapel Hill

Friday, October 15th, 2021, 10:00 – 11:00 AM
Zoom link: <https://ucsd.zoom.us/j/99717738932>

A roundtable discussion with Dr. Hogan will take place immediately following the talk

Abstract: Dr. Hogan will share a framework she uses about inclusion that guides her decision making around teaching and learning. As the pandemic continues, many students are apprehensive about being back in the classroom and some cannot physically attend for periods of time. Dr. Hogan will share strategies and lessons learned from various formats, including hyflex teaching (a highly flexible format that includes students in-person and live streaming). Come prepared to interact and share your experience with our speaker and colleagues.
