

# UCSD Division of Biological Sciences

## Overview of Classroom Teaching Options for Salk Adjunct Faculty

**Teaching Requirement:** Salk Adjunct Faculty are required to teach three 50 minute lectures IN BIOLOGY COURSES each year. Non-classroom instruction/mentoring/advising, etc., does not count as classroom teaching. Courses taught for other departments or programs outside Biology are counted towards required classroom teaching requirement only if Biology students are enrolled. A 3 year *Teaching Plan* must be established and submitted with new appointment and reappointment files. If you do not have one in place, this can be initiated with your EC Rep (<http://biology.ucsd.edu/education/grad/training-programs/salk-portal.html>). You will be asked to provide an annual update to your teaching plan each year in the spring via the online Salk Teaching Portal.

\* XXXX 194 (e.g. BISP 194) is a 2 unit upper division undergraduate seminar course that meets for 1 hr 20 min. per week (~13 hrs total). Co-teaching a XXXX 194 course with another Salk faculty member (each person teaches half) every other year year fulfills teaching expectations. **A maximum of two faculty may team up to teach one XXXX 194 course.** Course may be taught on Salk Campus, or UCSD campus.

### DIVISION OF BIOLOGICAL SCIENCES KEY CONTACTS

**EC** = Division of Biological Sciences Education Committee/Laurie Smith, Chair, [lgsmith@ucsd.edu](mailto:lgsmith@ucsd.edu) / (858) 822-2531  
**Bio AP** = Academic Personnel / Laura Ta, Manager, [lta@ucsd.edu](mailto:lta@ucsd.edu) / (858) 534-6387  
**SIS** = Student & Instructional Services/ Dana Brehm, Director, [dbrehm@ucsd.edu](mailto:dbrehm@ucsd.edu) / (858) 534-5394
